Trade-marks Journal

2017-02-08 — Vol. 64 No. 3250

Canada

Trade-marks Journal

Vol. 64 No. 3250

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

bleaching preparations for laundry use; all purpose cleaning, polishing, scouring and abrasive preparations; soaps, namely, bar soap, body cream soap, cosmetic soaps, hand soaps; perfumes; perfumery, essential oils for personal use; cosmetics, hair lotions; dentifrices; beauty products, namely, beauty creams, beauty gels, beauty masks, beauty sera, facial beauty masks; aftershave; common metals and their alloys: metal building materials, namely, soffits, fascia, non-metal countertops for further installation; buildings of metal, namely portable metal buildings; materials of metal for railway tracks; non-electric cables and wires of common metal, namely non-electrical lifting cables and wires made of metal; ironmongery, namely, metal door hardware; small items of metal hardware, namely, metal gate latches, metal brackets for bath accessories, decorative hooks , pulleys, sprints, nuts, washers, carabiners of metal, karabiners of metal, thimbles; pipes and tubes of metal, namely, metal drain and sewer pipes and tubes, and metal automotive pipes and tubes; metal safes; ores; name badges made of metal; key rings made of metal; towing apparatus, namely , towing hoists; parts and fittings for the aforesaid goods; machines, namely, soldering, welding, cutting and drilling machines, and machines for joining, namely gluing, welding, and soldering guns; machine tools, namely, broaches, chasers, gear cutters, grinding tools for grinding machines, lathes, thread milling cutters, taps, milling cutters; machine coupling and transmission components; engines and motors for automotive vehicles, airplanes, boats, elevators; exhausts and starters for motors and engines; power tools; parts and fittings for engines and motors for automotive vehicles, airplanes and boats; Hand tools, namely, devices for sharpening tools, choppers, corers, slicers, bag sealers, shredders, namely, paper shredders, scissors, scissor holders, scissor sharpeners, nutcrackers; cutlery; razors; cutters, namely, cake cutters, callus cutters, cutters for wine bottle foil, electric hair cutters, fishing line cutters, French fry cutters, glass cutters, pizza cutters, wire cutters; openers, namely, manually operated container openers for household or domestic use; parts and fittings for all the aforesaid goods; scientific instruments, namely, chromatography columns for use in purification in the laboratory, for measuring DNA/RNA and protein, fluorescence detector for crime scene investigations, electronic analyzers for testing consumer products for the presence of contaminants, electronic analyzers for measuring, testing and detecting contaminants and environmental pollutants; optical instruments, namely, optical transmitters, optical receivers, optical data links, optical transceivers, cable television transmitters, digital transmitters, namely, fibre optic light and image conduits, communication link testers for communication links; measuring instruments, namely, astronometric measuring instruments, namely telescopes, automotive water temperature gauges, automotive air fuel/ratio gauges, automotive boost gauges, automotive vacuum gauges and exhaust gas temperature gauges, conductivity meters, radiation measuring instruments comprising radiation detectors and recorders, resistance measuring instruments, namely voltmeters, milk quality parameter measuring instruments, namely, butyrameters, lactometers, petri dishes, agar, length measuring instruments, namely, tape measures, rulers, range finders; signaling instruments, namely, electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; life-saving instruments, namely, rafts; and teaching apparatus and instruments, namely, educational apparatus namely a transparent tank used as a teaching aid for the chemical process of making alternative fuels; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical circuits, conductors for transformers, control systems for electricity: apparatus for recording, transmission or reproduction of sound or images, namely, telecommunications transmitters, emitters and receivers, namely, radio, television and video transmitters, audio-video receivers and light emitting diodes (LEDs) for networking with radio, computer, wireless, microwave and telecommunications networks, music recorders, namely, sound and video recording and playback machines, stereo systems, computer speakers, signal amplifiers and audio/video cables for the transmission of sound and images; blank magnetic data carriers, namely CDs, DVDs, floppy discs, plastic cards with a magnetic strip, prerecorded magnetic data carriers, namely CDs, DVDs, floppy discs featuring information in the automotive field; blank recording discs sold empty, prerecorded compact discs featuring information in the automotive field ; automatic vending machines and mechanisms for coin operated apparatus; cash registers; calculating machines, namely, adding machines and computers; fire-extinguishing apparatus, namely, fire extinguishers, fire hoses, fire sprinklers; ignition batteries; petrol gauges, vehicle navigation apparatus in the nature of on-board computers; computer games; toys, namely, plush toys, baby toys, bath toys, pull toys, musical toys, mechanical toys, educational toys, construction toys, ride-on toys; eyewear, namely, spectacles, sunglasses, contact lenses; safety helmets; photographic apparatus, namely, cases for photographic apparatus, drying apparatus for photographic prints, stands for photographic apparatus; diving apparatus, namely, air tank dolly for scuba diving, air tanks for scuba diving, buoyancy compensator jacket for use in scuba diving, diving goggles, diving gloves, diving helmets, diving suits, face masks for diving, regulators for use in scuba diving, weight belts for scuba diving; electronics, namely electronic equipment systems for home entertainment comprising home theatre surround sound, big screen television, DVD player, home theatre computer; CD player; remote controls for radios, televisions, stereos; cameras; toy cameras; computer hardware and firmware for use in database management in the automotive field , used as a spreadsheet in the automotive field, word processing in the automotive field; computer software for use in database management in the automotive field; compact discs featuring information in the automotive field; digital music (downloadable from the Internet); telecommunications apparatus, namely, automatic switching apparatus connecting components to a television to permit switching between components, namely, change-over switches, electric capacitors, electric resistors, electrical transformers, telecommunication line integrity testing apparatus, namely a system for testing the integrity of telecommunication lines comprising of cables and meters, namely, test call generators (TCGs), fuses, indicator lights, microphones; computer games equipment adapted for use with TV receivers, namely, joysticks adapted for use with television receivers; mouse mats; telephones; mobile telephones; mobile telephone covers; mobile telephone cases; mobile phone accessories, namely, devices for hands-free use of mobile phones, namely, cordless earphones, cordless speakerphones, cordless headsets, downloadable graphics for mobile phones, downloadable ring tones for mobile phones, headsets for mobile phones, keyboards for mobile phones, mobile phone straps; clothing, headgear and footwear for protection against accident, irradiation or fire, namely fire and radiation protective clothing, hats, caps and helmets, shoes and boots; electrical conductors for electric motors and transformers; electric power transformers; electric lighters for use in automobiles; signalling lanterns and vehicle breakdown warning triangles; telephone aerial installation components, namely, optical fibres, telephone receivers, switchboards, telephone and telegraph wires, video telephones; intercoms; anti lock brake apparatus, namely, brake controllers; speedometers, gauges, warning and information apparatus and instruments, namely, electric warning lighting systems comprising lights, flashers and flashing arrow boards; automatic stability control apparatus namely, vehicle traction control systems for integrating and controlling automobile parts for performing stability control; electronic hydraulic control apparatus, namely, pressure transducers and transmitters that convert hydraulic or pneumatic pressure into analog electrical signals for monitoring and controlling hydraulic or pneumatic systems; electronic damper control apparatus for use with motor land vehicles or vehicles for locomotion by air or water; digital motor electronics apparatus, namely, brushless motor controllers, stepper motor controllers, motor controllers, noise suppression circuits, motor protection relays, over current and over voltage protection circuits, and speed controllers for use with motor vehicles; electronic cruise control apparatus for use with motor land vehicles or vehicles for locomotion by air or water; anti theft warning devices for motor cars; distance measuring apparatus, namely, electric motor testing apparatus for measuring distance for use in vehicles; computers for use in vehicles or apparatus for locomotion by air or water; radios, blank audio cassettes, prerecorded audio cassettes with information in the automotive field; loudspeakers ; aerials, namely, antennae for use on motor vehicles; radios; video and audio cassettes, namely, blank video and audio cassettes, prerecorded video and audio cassettes featuring information in the automotive field; calculators; fuses for motor land vehicles or apparatus for locomotion by air or water; parts and fittings for all the aforesaid goods; land, water and air vehicles, namely, four-wheel land motor vehicles, namely, automobiles, small powerboats, personal jet boats, water scooters, surf skis, water-jet propulsion driven boats, airplanes, aeroplanes; apparatus for locomotion by land , water and air, namely, automobiles, all terrain vehicles, trucks, vans, lorries, trams, trailers, motor homes, buses, trains, cable cars, ships, ferries, aquascooters, yachts, amphibious aircraft, motorized surfboards, go-karts, motorized sleds, snowmobiles, scooters, bicycles, tricycles, motorcycles, side cars, dirigibles, hot air balloons, helicopters; engines for land vehicles; boats, yachts; parts and fittings for the aforesaid goods, namely, antilock brake systems for land vehicles, namely, housings, pistons, plugs, seats, push rods and return pins, input rods, output rods, accumulators, core dumps, armatures, sleeves, plungers and guides, electronic stability system to allow better control and maneuverability of cars, trucks and trailers, sold as an integral component of cars and trucks, towing apparatus, namely, metal locking device for trailer hitch couplers; precious metals and their alloys; jewellery, precious stones; horological and chronometric instruments, namely watches and clocks; parts and fittings for all the aforesaid goods; paper, namely wrapping paper, carbon paper, sheet paper, note paper, cardboard; printed matter, namely, teaching materials in the field of automobiles, printed information cards, printed answer sheets, printed post cards, printed educational materials, namely, printed correspondence course materials in the field of automobiles, printed informational folders, posters, printed mail response cards, printed press releases, vinyl static cling sheets, newspapers, newsletters, brochures, pamphlets; picture albums in the automotive field; books; book binding material, namely binding machines, covers, hangers, laminating machines, spires, tape and wire; photographs; stationery, namely, binders, envelopes, labels, erasers, folders, notepads, organizers, pens, pencils, postcards, staples , staplers; adhesives for stationery or household purposes; artists' materials, namely, brushes, pastels, pencils, pens, canvas panels, moulds for modeling clays; paint brushes; typewriters and office requisites, namely, adhesive tape dispensers, paperweights, correcting fluid for type, electronic paper hole punchers, envelope sealing machines, paper embossers, paper folding machines, rubber bands, staplers; instructional and teaching material in the form of printed books, manuals, texts, pamphlets, brochures in the field of automobiles; plastic materials for packaging, namely, bags and bubble packs; printers' type; printing blocks; writing instruments, namely, markers, crayons; pens, pencils; prints, namely posters; leather and imitations of leather, and goods made of these materials, namely, purses, business card holders, holdalls; animal skins, hides; trunks and travelling bags; luggage; handbags; cases, namely, leather cases, namely, attaché cases, book cases, business card cases, camera cases, cigarette cases, contact lens cases, cosmetic cases, eyeglass cases, jewellery cases, key cases, briefcases; wallets; rucksacks; umbrellas, parasols and walking sticks; whips, harness and saddlery; furniture, namely computer furniture, office furniture, dining room furniture, living room furniture, bedroom furniture, kitchen furniture, outdoor furniture, casual living furniture; mirrors, picture frames; household utensils, namely, grates, sieves, spatulas, strainers, turners, pot and pan scrapers, rolling pins, whisks, skimmers; kitchen utensils, namely, kitchen tongs, splatter screens, pouring and straining spouts, non-metal flexible lid designed for draining or pressing liquids from a food can; containers for household or kitchen use; bottle openers; pill boxes for personal use; combs and all purpose scouring sponges; brushes, namely, acid-proof wash brushes used for the application of acid to vehicles for cleaning purposes, automobile wheel cleaning brushes, bath brushes, billiard table brushes, brushes for cleaning golf equipment, brushes for cleaning bicycle components, brushes for footwear, brushes for grooming golf putting greens, brushes for parquet floors, brushes for pets, brushes for pipes, brushes for washing up, cake brushes, cleaning brushes for musical instruments , cleaning brushes for household use, clothes brushes, cosmetic brushes, crumb brushes, dusting brushes, file brushes, fireplace brushes, floor brushes, golf brush, hair brushes, tooth brushes, nail brushes, lint brushes, make-up brushes, scrubbing brushes, shaving brushes, toilet brushes; brush-making materials; articles for cleaning purposes, namely, cleaning sponges, cleaning rags, cleaning mitts for fabric, cleaning combs, cleaning swabs for commercial uses, dispensers for cleaning and disinfecting solutions, metal wool for cleaning; steel wool; un-worked or semi-worked glass (except glass used in building); glassware, namely, beverage glassware, porcelain, namely, desktop statuary made of porcelain, figurines made of porcelain, holiday ornaments made of porcelain, plaques made of porcelain, porcelain cake decorations, porcelain doorknobs, porcelain eggs, porcelain mugs, sculptures of porcelain, and earthenware; vehicle cleaning materials, namely , acid-proof wash brushes used for the application of acid to vehicles for cleaning purposes; textiles , namely, covered rubber yarn fabrics, curtains, hand towels, non-woven textile fabrics, travel blankets, picnic blankets, and textile goods, namely, synthetic sheets; bed and table covers; cloth towels; linen, namely table linen, kitchen linen, bed linen, bath linen, linen fabric; adhesive fabrics, namely fabrics with adhesive backing; home furnishings, namely textile wall hangings, carpets, mats; clothing, namely, casual clothing, women's clothing, namely athletic clothing, business clothing, casual clothing, dress clothing, outdoor winter clothing, motorcyclist protective clothing, sports clothing, sun protective clothing, men's clothing, namely athletic clothing, business clothing, casual clothing, dress clothing, outdoor winter clothing, motorcyclist protective clothing, sports clothing, sun protective clothing, children's clothing; footwear, namely shoes, boots, sandals, slippers; headgear, namely, caps, hats; lace and embroidery, decorative ribbons and braid; clothing buttons, hooks and eyes, pins and needles, namely, sewing pins and sewing needles; badges, namely, ornamental novelty badges; lapel pins; artificial flowers; carpets, rugs, mats and matting, namely, floor mats and matting, linoleum for covering existing floors, automotive vehicle mats and matting; wall hangings (non-textile); games and playthings, namely, stuffed toy animals, electronic games; gymnastic and sporting articles, namely, wrist and joint supports, adhesive under-eye glare reduction strips, under-eye grease for reducing glare, life-sized inflatable dummy with water-filled base for use as a target practice for kickboxing workouts, adhesive tape for hockey stick and uniform support, portable pitching mounds, toy game balls, rings, cones, speed ladders, coaching sticks, training arches, ankle bands, resistance chutes, hurdles, spring boards; toy land, water or air vehicles; toy model land, water or air vehicles, die-cast land, water or air vehicles; surfboards; ski bags; remote controlled vehicles; decorations for Christmas trees and parts and fittings for the aforesaid goods, namely, Christmas tree decorations, namely, ornaments, garlands, wreaths, bells, candle holders, dolls, stockings, Christmas tree skirts, Christmas tree stands; tobacco; smokers' articles, namely, metal pocket-sized receptacles with lids for cigarette butts, keystones for pipes, outdoor receptacles for cigar and cigarette ash and waste, outdoor cigar and cigarette disposal units, cigar storage stubs, cigar glue, rehydration tubes, containment clips used to keep a cigar from falling apart, cigar relighting liquid solution; pipes; cigarette and pipe cases; lighters; matches; ash trays

SERVICES

business management, business administration, retail services in the field of the sale of land, water and air vehicles, engines, boats, yachts, beauty products, toiletries, electronic and electrical machines for household use, hand tools, optical goods, namely, spectacles, spectacle cases, spectacle lenses, spectacle frames, contact lenses, containers for contact lenses, correcting lenses , lens hoods, ophthalmic lenses, optical lenses, cameras, domestic electrical and electronic equipment, namely small electric kitchen appliances, jewellery, clocks, watches, stationery, publications, leather goods, luggage, furniture, household containers and utensils, furnishings, textiles, clothing, footwear, headwear, haberdashery, toys and games, sports equipment, foodstuffs , drinks, tobacco products and parts and fittings for the aforesaid goods, namely retail sale of land, water and air vehicles, apparatus for locomotion by land, air or water, namely, automobiles, all terrain vehicles, trucks, vans, lorries, trams, trailers, motor homes, buses, trains, cable cars, ships, boats, ferries, aquascooters, yachts, amphibious aircraft, motorized surfboards, go-karts, motorized sleds, snowmobiles, scooters, bicycles, tricycles, motorcycles, side cars, dirigibles, hot air balloons, helicopters, engines, beauty products, toiletries, machines for household use, namely, laundry appliances, air purifiers for household purposes, ovens, stoves, microwave ovens, water purifiers for household use, garbage incinerators for household use, hand tools, optical goods, namely, spectacles, spectacle cases, spectacle lenses, spectacle frames, contact lenses, containers for contact lenses, correcting lenses, lens hoods, ophthalmic lenses, optical lenses, cameras, domestic electrical and electronic equipment, namely small electric kitchen appliances, jewellery, clocks, watches, stationery, publications, leather goods, luggage, furniture, household containers and utensils, furnishings, textiles, clothing, footwear, headwear, haberdashery, toys and games, sports equipment, foodstuffs, drinks, tobacco products and parts and fittings for the aforesaid goods, consultancy and information services in the field of all the aforesaid, namely, providing business management consulting service in the field of retail operations for the foregoing goods; financial services, namely, financial investment counselling and financial management, insurance, monetary affairs, namely, monetary exchange, monetary exchange operations, monitoring monetary charitable monetary giving through financial and estate planning, monitoring monetary charitable donations for fraud prevention purposes, real estate affairs, namely, appraisal and evaluation of real estate, assessment and management of real estate, commercial and residential real estate agency services, lease of real estate, providing real estate listing via the internet, real estate acquisition services, real estate agencies, real estate consultation, real estate escrow services, real estate management services, real estate multiple listing services, real estate procurement for others, rental property management, real estate development, lease purchase financing, purchase agreement services, lease-purchase financing and purchase agreement services for land, water and air vehicles and parts and fittings for such goods, providing financing for the rental of land, water and air vehicles and parts and fittings for such goods, providing financing for the maintenance and repair of land, water and air vehicles and parts and fittings for such goods, providing financing for the emergency repair and maintenance of land, water and air vehicles and parts and fittings for such goods, consultancy and information services in the field of all the aforesaid, namely, financial advice and consultancy in the field of vehicle leasing and sales; building construction and repair, namely, services in the field of the design, construction and repair of buildings and structures, installation services, namely installation and repair of motor vehicles and parts, construction, repair and maintenance of land, water and air vehicles, engines and parts and fittings for the aforesaid goods, namely the maintenance and repair of land, air and water vehicles, engines and parts, consultancy and information services in the field of all the aforesaid, namely, building design and construction consulting services and technical consulting in the field of installation, maintenance and repair of buildings and vehicles; transport, namely air, freight and rail transportation of goods, packaging of goods, namely, storage of air, land and water vehicles, storage of goods, namely storage of air, land and water vehicles, travel arrangement, travel agency , forwarding (shipping) namely, freight agreement, transport information, namely, shipping and delivery services, namely, pickup transportation, and delivery of packages by various modes of transportation by land, air, and sea, by electronic and personal delivery, and by remote access; rental of vehicles and apparatus for locomotion by land, air or water, namely, small powerboats, personal jet boats, water scooters, surf skis, water-jet propulsion driven boats, ships, ferries, aquascooters, yachts, amphibious aircraft, motorized surfboard airplanes, dirigibles, hot air balloons, helicopters, consultancy and information services in the field of all the aforesaid, namely, business consulting in the field of transportation; educational services namely, conducting classes, seminars, conferences, workshops in the field of design, engineering and technology in the field of automobiles, motor vehicles and building and fixed structures, providing training services in the field of design, engineering and technology in the field of automobiles, motor vehicles and building and fixed structures, entertainment services in the form of automobile races, competitions and games in the field of automobiles, and musical performances in design, engineering and technology in the field of automobiles, motor vehicles and buildings and fixed structures, sporting and cultural activities directed to educating the public on vehicle safety and on aspects of design, engineering and technology in the field of automobiles, motor vehicles and buildings and fixed structures, health club facilities, clubs, namely automobile clubs, provision of casino facilities, gaming, organization of competitions, namely, organization of car races, provision of games, training and publishing services in the field of automobile clubs, consultancy and information services in the field of all the aforesaid, namely, business consulting in the field of design, engineering and technology in the field of automobiles, motor vehicles and buildings and fixed structures; services for providing food and drink, namely, cafes, bars, take out services, catering, providing temporary accommodation, namely, motels, inns, resorts, time-share accommodations, restaurant services, hotel services, consultancy and information services in the field of all the aforesaid, namely, providing personalized information about hotels and temporary accommodations for travel via the Internet, travel agency services, namely, making reservations and booking for temporary lodging, restaurants and meals, travel agency services, namely, making reservations and booking for temporary lodging for other travel agencies, travel suppliers, and corporations, via on-line computer networks

Goods

(1) Power adaptors for portable electronic devices, namely, for electronic readers, home, personal and mobile digital and audio media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; power cords; power chargers for portable electronic devices, namely for electronic readers, home, personal and mobile digital and audio media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices;

(2) Portable and handheld digital electronic devices, namely, electronic book readers, CD players, DVD players, MP3 players, laptops, tablet computers, smart phones, digital cameras, and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, all for transmitting, storing, manipulating, recording, and reviewing text, images, audio, video and graphics, via global computer networks, wireless networks, and electronic communications networks and electronic and mechanical parts and fittings therefore; computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, namely text messages, video games, music, audio books, movies, and television shows via global computer networks, WIFI, cellular networks, and satellite networks, and the Internet;

(3) Computer software for accessing movies, TV shows, videos and music;

(4) Handheld mobile digital electronic device comprising a tablet computer, electronic book and periodical reader, digital audio file player and video file player, camera, electronic personal organizer, personal digital assistant, electronic calendar, capable of providing access to the Internet and sending, receiving, and storing messages and other data; stands specially designed for holding handheld computers and portable and handheld digital electronic devices; software in the field of user-selected and user-generated text, image and sound transmission and display, namely computer software for transmitting, storing, manipulating, recording and reviewing text messages, digital still images and moving pictures, music, audio books, movies, television shows, video games and graphics, via global computer networks, WIFI, cellular networks, and satellite networks, and the Internet, for use in association with electronic readers, home, personal and mobile digital and audio media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal

digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices;

(5) Computers, home, personal and mobile digital audio and video players, namely laptops, tablet computers, smart phones, digital cameras, electronic personal organizers, personal digital assistants, and global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, and electronic and mechanical parts and fittings therefore; battery chargers for portable and handheld electronic devices, namely, for electronic readers, home, personal and mobile digital and audio media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; computer memory cards and memory card readers; skins , speakers, monitors, printers, displays, and keyboards for portable electronic devices, namely, for electronic readers, portable media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; electronic docking stations for use with portable electronic devices, namely, for electronic readers, portable media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; wireless remote controls for portable electronic devices, namely, for electronic readers, portable media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs) and computers, and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; headphones and earphones; blank computer discs; blank digital storage media, namely, hard drives, DVDs, CDs, USB drives, audio visual discs, digital video discs, optical discs, flash drives, flash memory cards; blank electronic storage media, namely flash memories, and hard discs; blank smart cards; computer cables; calculators; camera tripods; computer mice; computer network routers and hubs; computer accessories, namely, computer leads for external computer cabling in the nature of IEEE 1394 leads, USB leads; USB hubs; flash card readers; projectors, namely, digital sound projectors and amplifiers; DVD burners; DVD drives; computer peripherals in the nature of wireless memory cards; electrical and power cables; converters, namely current, electrical, and television converters; USB hardware; computer keyboards; printer components and accessories, namely, cables; computer software for the retrieval of and for permitting the use of data and information from third-party websites, namely, text messages, video games, music, audio books, movies, and television shows; computer software for providing access to and interface with third-party e-commerce software tools; computer software for the development of applications for the retrieval of and for permitting the use of data and information from third-party websites, namely, text messages, video games, music, audio books, movies, and television shows; computer hardware; downloadable electronic publications in the nature of fiction, non-fiction books, magazines, and periodicals, comics and screenplays via computer and communications networks; downloadable films and movies featuring fiction and non-fiction stories provided via computer and communications networks; downloadable templates for designing books, short stories, storyboards, screenplays, comics, audio and video files; downloadable audiobooks and digital audio files, namely music; downloadable audio, video and audiovisual content provided via computer and communications networks featuring movies, TV shows, music- and user-generated-videos, and music;

(6) Downloadable computer software for the retrieval of and for permitting the use of data and information from third-party websites, namely, text messages, video games, music, audio books, movies, and television shows; computer software for providing access to and interface with

third-party e-commerce software tools; downloadable computer software for the development of applications for the retrieval of and for permitting the use of data and information from third-party websites, namely, text messages, video games, music, audio books, movies, and television shows;

(7) Computer hardware; computer peripherals in the nature of wireless memory cards; battery chargers for portable and handheld electronic devices, namely, for electronic readers, home, personal and mobile digital and audio media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; USB hardware; power adaptors for portable electronic devices, namely, for electronic readers, home, personal and mobile digital and audio media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; headphones and earphones; software in the field of user-selected and user-generated text, image and sound transmission and display, namely computer software for transmitting, storing, manipulating, recording and reviewing text messages, digital still images and moving pictures, music, audio books, movies, television shows, video games and graphics, via global computer networks, WIFI, cellular networks, and satellite networks, and the Internet, for use in association with electronic readers, home, personal and mobile digital and audio media players, laptops, tablet computers, smart phones, digital cameras, keyboards, personal digital assistants (PDAs), and global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices.

Goods

Class 09
(1) Apparatus and instruments for scientific research in laboratories, namely SPCMs (single-photon counting modules), measuring apparatus, namely, avalanche photodiodes, fluorescence illuminators for microscopy, LED (light emitting diodes), lasers for surgical, medical, non-contact measurement and life science research and laser diode modules; light sources for spectral analysis , namely Xenon lamps and all solid state infrared lasers; magneto- and electro optics, namely

Faraday Isolators, Pockels Cells, Laser Modulators and associated drivers; optics and optical elements (namely, singlets, aspheres, achromats; mirrors, namely plano and concave metallic, hybrid, dielectric mirrors for both broad band and highly reflective applications in laboratory research, imaging, dichroic beamsplitters, lasers and illuminators; prisms, plano optics, Polaraization Optics, namely Glan-Taylor prisms, Rochon prisms, Brewster polarizers, polarizing beamsplitter cubes, thin film polarizers, retardation plates and sheets, achromoatic retarders and polarization filters and gratings, namely UV/Visible/IR ruled, holographic and transmission gratings, for use in spectrography, spectrometers and industrial measurement equipment), optoisolators, optomechanical components, namely, optics and mirror mounts and posts, tube and cage components rails, posts, both manual and motorized linear, X-Y, X-Y-Z axis and rotary positioning stages, multi-axis nanopositioners, clamping mechanisms as used in optical laboraty and products prototyping setups and positioners; OPOs (optical parametric oscillators), photodiodes, SiPM (silicon photomultipliers), SPCM (single-photon counting modules), spectrometers, xenon and pulsed xenon light sources.

Class 11

(2) Apparatus for lighting, namely, arc lamps, fiberoptics, flashlamps, fluorescence illuminators for microscopy, halogen light sources, LEDs (light-emitting diodes), light guides, namely, Liquid Light Guides, high power fiber light guides, high power fiber light lines used with UV curing light sources or equipment in production facilities and assembly lines for medical instruments, electronics/ opto-electronics, general assembly and coatings and digital printing; light sources for spectral analysis, namely Xenon lamps and all solid state infrared lasers; UV lamp and LED curing equipment or light sources used in the manufacturing of medical instruments, electronics/ opto-electronics, general assembly and digital printing for the curing of adhesives, inks and coatings; pulsed laser diodes, ringlights, xenon and pulsed xenon light sources.

BLACK SHEEP ORGANICS

Image Description (Vienna)
- Goats, sheep, moufflons, chamois
- Two lines or bands
- Horizontal lines or bands
- Thin lines
- Letters presenting a special form of writing
- Letters underlined, overlined, framed or barred by one or more strokes

---

Trademark Description
An antique illustration of a sheep standing on hay above the words 'BLACK SHEEP' in upper case Vebas font. Below BLACK SHEEP is the word 'organics' in lower case Honeyscript font. There is a single black line on either side of the word 'organics'. Each line length runs from the edge of the word 'organics' to the outer edge of the words 'BLACK SHEEP'. The word 'organics' is approximately on-half the width of the words 'BLACK SHEEP'. All elements of the logo are centered left to right. The height of the sheep is approximately one-third the width of the logo. The entire height of the logo is equal to the width of the logo so that the entire logo fits in a square or circle.

The shades of green from the outer portion of the design moving inwards are as follows: light pear green (far corners), apple green, dark green, light pear green, lighter green-yellow

Goods

(1) dietetic substances adapted for medical use namely, blended powdered carbohydrates, fatty acids, amino acids, vitamins and minerals; pediatric nutritive preparations namely, liquid food providing complete balanced nutrition; dietary and nutritional supplements for children namely,

nutritional beverages for children in powder and liquid form enriched with protein, minerals and vitamins, nutritional powder namely protein powder, meal replacement powder, meal replacement drinks, protein drinks; liquid nutritional meal supplements namely, protein, mineral and vitamin based drinks; nutritional and dietary supplement bars namely, meal replacement bars and nutritional meal supplement bars containing vitamins, minerals and proteins; infant formula; food for babies; prenatal vitamins; lactation vitamins

(2) powdered milk preparations namely, powdered milk-based nutritional supplement drink mixes containing fortified nutrients, powder and supplements for infants and children; milk and milk products

TRADEMARK

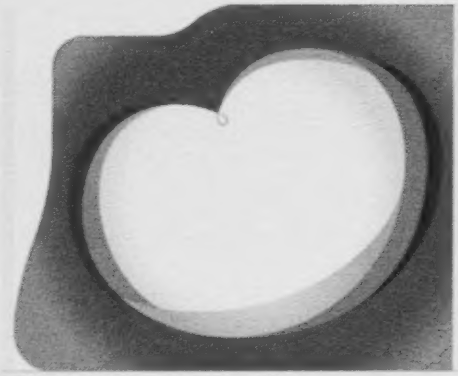

Image Description (Vienna)

- Other parts of the human body -- Note: Not including heads, which will be placed in the appropriate sections of divisions 2.1, 2.3, 2.5 or 2.7.
- Hearts -- Note: Including also hearts represented as a symbol or on playing cards.
- Beans, peas, lentils
- More than two lines or two bands
- Curved lines or bands (except a 26.11.13)
- Other geometrical figures, indefinable designs -- Note: Including scratch marks.
- Violet
- White, grey, silver

Colour Claim

Colour is claimed as a feature of the trade-mark. The outer portion of the design surrounding the womb shape are varying degrees of purple and the wormb shape is white. The shades of purple from the outer portion of the design moving inwards are as follows: light shade of purple (far corners), medium shade of purple, dark shade of purple, medium shade of purple, light shade of purple

Goods

(1) dietetic substances adapted for medical use namely, blended powdered carbohydrates, fatty acids, amino acids, vitamins and minerals; pediatric nutritive preparations namely, liquid food providing complete balanced nutrition; dietary and nutritional supplements for children namely,

nutritional beverages for children in powder and liquid form enriched with protein, minerals and vitamins, nutritional powder namely protein powder, meal replacement powder, meal replacement drinks, protein drinks; liquid nutritional meal supplements namely, protein, mineral and vitamin based drinks; nutritional and dietary supplement bars namely, meal replacement bars and nutritional meal supplement bars containing vitamins, minerals and proteins; infant formula; food for babies; prenatal vitamins; lactation vitamins

(2) powdered milk preparations namely, powdered milk-based nutritional supplement drink mixes containing fortified nutrients, powder and supplements for infants and children; milk and milk products

Goods

(1) Chemicals used in the marine shipping industry for slide bearing bushes; plastics based on polycarbonates, vinyl polymers, polyamides, polyesters, polyaurates and polyurethanes as raw materials; plastics being thermoplastic materials; gums, namely adhesives for slide bearing bushing arrangements; plastics and goods made therefrom, namely plastic panels, plastic blocks, plastic tubes, semi-finished plastic sheets, solid rods, granules, hollow rods, plastic boards, tensioned parts for slide bearing bushing arrangements, injection moulded parts for slide bearing bushing arrangements and slide bearing bushings; Plastic alloys; High performance plastics based on polyacrylates, polyetherimides, polyethersulfones, polyetherketones, polysulfones, liquid crystal polymers, polyphenylenesulphides and polyacrylimides; artificial resins, unprocessed; unprocessed plastics

(2) Propulsion drives for marine, coastal and inland waterway vessels; prefabricated parts of plastic for manufacturing sliding elements for parts of machines

(3) Nautical installations and facilities, namely control installations, manoeuvring systems, rudder and hydraulic systems, rudders, rudders with twisted rudder blades, balance profile rudders, full-spade rudders, semi-spade rudders, rudders with or without articulated fins, rudder blades, steering nozzles, Kort nozzles, Kort nozzle rudders, bow thrusters, Screw-propellers for boats, propeller nozzles, ducted propellers, transverse thrusters, guide devices for controlling propeller flow in ships, devices affecting propeller inflow, including nozzle rings and guide vanes for ships; rudder components, in particular rudder bearings, neck bearings, rudder shafts, rudder trunks, rudder supporting bearings, bearing bushes, axial bearings, radial bearings, sliding bearings, bearing rings, bearing housings, segments of bearing bushes or bearing rings, the aforesaid goods in particular being of plastic; components of Kort nozzles or nozzle propellers, in particular rudder bearings, neck bearings, rudder shafts, rudder trunks, rudder supporting bearings, bearing bushes, axial bearings, radial bearings, sliding bearings, bearing rings, bearing housings, segments of bearing bushes or bearing rings, the aforesaid goods in particular being of plastic; components of articulated rudder fins, in particular fin joints, joint bushes, hinges, bearing bushes, the aforesaid goods in particular being of plastic; prefabricated parts of plastic for manufacturing sliding elements for parts for rudder gears in marine vehicles

(4) Semi-finished products of plastic for manufacturing sliding elements being machine parts being parts of rudder assemblies for marine vehicles

Goods

Class 09
antennas for radio; cellular phones; cellular telephones; cellular television towers; chip card readers ; circuit boards; circuit boards provided with integrated circuits; comparators; computer buffers; computer cables; computer central processing units; computer chips; computer disk/disc drives; computer display screens; computer fingerprint imaging software; computer fingerprint scanning software; computer game cartridges; computer games; computer hardware; computer hardware and software for setting up and configuring local area networks; computer hardware for telecommunications; computer interface boards; computer interface cards; computer joysticks; computer memory expansion modules; computer motherboards and daughterboards; computer network adapters; computer network bridges; computer network server; computer network switches ; computer operating programs; computer operating recorded programs; computer operating systems; computer power supplies; computer programmes for document management; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs for searching the contents of computers and computer networks by remote control; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for assisting developers in creating program code for use in multiple application programs; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for creating and editing music; computer software for creating and inserting metatags into documents and information; computer software for creating computer games; computer software for creating, sending and receiving e-mail; computer software for creating video games; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for image processing; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts;

computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to mobile telephones; computer speakers; computer stands; computer terminals; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer utility virus protection programs; computer video games; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers for managing control devices for aircraft; computers for use in data management; cordless telephones; demodulators; digital disc drives; digital input and output scanners; digital signal processors; digital voice signal processors; disk drives for computers; e-commerce software to allow users to perform electronic business transactions via a global computer network; educational software containing topics of instruction in math; educational software for children; electronic circuits; electronic computers; electronic encryption units; electronic integrated circuits; electronic machines for reading credit cards and recording financial operations; electronic semi-conductors; ethernet adapters; ethernet switches; facilities management software to control building environmental access and security systems; fibre optic cables; fibre optic couplings; fibre optic light and image conduits; fibre-optic cables; firmware for remote monitoring of hardware; fixed location telephones; flash card readers; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; hard disk drives; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; interactive multimedia computer games; internal cooling fans for computers; internet newsletters; internet servers; intranet servers; jumper cables; junction boxes; junction sleeves for electric cables; junction sleeves for fibre optics; laboratory robots; lan [local area network] computer cards for connecting portable computer devices to computer networks; LAN (local area network) operating software; laptop computers; microchips; micro-computers; microprocessors; microprocessors and semi-conductors; microwave antennae; mobile phones; mobile telephones; mounting racks for computer hardware; navigation apparatus for vehicles in the form of on-board computers; netbook computers; network access server operating software; network interface cards; network routers; network servers; notebook and laptop computers; notebook computer carrying cases; notebook computers; optical cables; optical character readers; optical disc drives; optical disk drives; optical disk readers; optical fiber cables; optical fibres; optical lenses; optical multiplexers; optical reflectors ; optical scanners; optical semiconductor amplifiers; optical sensors; optical shutters; optical switches; pagers; power amplifiers; power transformers; power transformers for amplification; pre-recorded compact discs containing computer games; pre-recorded floppy discs containing spreadsheet software; pre-recorded floppy discs containing word processing software; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; public address systems; public telephones; radar detectors; radar receivers with amplifiers; radio frequency connectors; radio receivers; radio receivers and radio signal tuners; radio receivers and transmitters; radio sets; radio transceivers; radio transmission towers; radio transmitters; radio transmitters and receivers; radios; radios and telephones; radiotelephony sets; RAM (random access memory) cards; recorded computer operating programs; repeaters for radio and television stations; satellite aerials; satellite dishes; satellite dishes for satellite transmissions; satellite processors; satellites; satellites for scientific purposes; secure terminals for electronic transactions; security software; semiconductor chips; semiconductor diodes; semiconductor integrated circuits; semiconductor power elements; semiconductor transistors; semiconductor wafers; semi-conductors; semiconductors; signal amplifiers; signal processors; silicon carbide diodes; silicon chips; single-channel radio communication machines and apparatus for fixed stations; smart card readers; smart phones; smart printers; smart terminals; smoke detectors; software for computer aided design CAD; software for computer aided mechanical design; software for creating photo slide shows; software for creating virtual picture frames; software for creating virtual reality games; software for dosimetry purposes in the field of radiotherapy; software for ensuring the security of electronic mail; software for optical character recognition; spectroscopes; structured semi-conductor wafers; switchboards; tablet computers; talking books; telecameras; telecopying equipment; telegraph wires; telemeters; telephone answering machines; telephone cables; telephone connectors; telephone receivers; telephone recorders; telephone sets; telephone sets with screen and keyboard; telephone smart cards; telephone terminals; telephone transmitters; telephone wires; telephones; television converters; television decoder; temperature sensors; test adapters for testing printed circuit boards; test pins for testing printed circuit boards; test tubes; timing sensors; touch pads; touch panels; transceivers; transistors; USB cables; USB flash drives; USB (universal serial bus) operating software; video disks and video tapes with recorded animated cartoons; video monitors; video multiplexers; video printers; video processors; video projectors; video receivers; video screens; video tape players; video tape recorders; video tape recordings; video telephones; video transmitters; videocameras; videophones; video-telephones; viewfinders for cameras; viewphones; virtual reality games; virtual reality software for movie special effects; virtual reality software for simulating golf game; visual telephones; voip phones; voltage monitor modules; voltage regulators; voltage regulators for electric power; voltage regulators for vehicles; voltage stabilizers; voltage stabilizing power supply; voltage surge protectors; voltage surge suppressors; voltmeters; voting machines; VPN (virtual private network) operating software; walkie-talkies; wattmeters; waveguides for high power beam delivery; wavemeters; wire diameter measuring devices; wireless computer mice; word processors

SERVICES

Class 38

(1) cellular telephone communication; cellular telephone services; cellular text messaging services; communication by means of mobile phones; communication by mobile telephone; communication by telephone; communications by telegrams; distribution of news podcasts; electronic mail; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; e-mail forwarding services; email services; fixed and mobile telephone services; internet access provider services; internet radio broadcasting services; internet service provider (ISP) services; internet telephony services; mobile radio telephone services; mobile telephone communication; mobile telephone services; mobile telephony; network conferencing; operating a wide-area network (WAN); operation of a cellular phone network; paging by radio; paging services; pail containers; personal communication services (PCS); providing cellular telephone communication services for charitable purposes; providing e-mail fax services; providing e-mail services; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing on-line chat rooms for social networking; providing user access to a global computer network; providing user access to global computer networks; providing virtual private network (vpn) services; providing voice chat services; provision of access to a global computer network; provision of access to the Internet; radio

broadcasting; radio broadcasting of information and other programs; recording, storage and subsequent transmission of voice and text messages by telephone; rental of access time to global computer networks; rental of telephones; satellite telephone transmission; satellite television broadcasting; satellite television transmission; secure e-mail services; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; telecommunication routing and junction services; telecommunications routing and junction services; teleconferencing; teleconferencing and video conferencing services; teleconferencing services; telegram services; telegraph services; telegraphy services; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; television and radio broadcasting services; television broadcasting; transmission of radio and television programmes by satellite; video conferencing services; video on demand transmissions; video streaming in the field of independent films; video telephone services; video-on-demand transmission services; videotext services; virtual chatrooms established via text messaging; voice mail services; voice messaging services; voice-activated dialling services; voicemail services; wireless digital messaging services; wireless facsimile mail services; wireless fax services; wireless telephone services; wireless voice mail services

Class 41

(2) computer training; developing educational manuals; digital imaging; educational services in the form of providing incentives to organizations to demonstrate excellence in the field of science; operation of a website that provides streaming audio and video such as music, movies, television shows, music videos, news and sports webcasts; providing waterpark services; publication and editing of printed matter; publication of books; publication of books, magazines, almanacs and journals; publication of electronic books and journals on-line; publication of electronic magazines; publication of electronic newspapers accessible via a global computer network; publication of magazines; publication of textbooks; publication of the editorial content of sites accessible via a global computer network; publishing of books and magazines; publishing of books and reviews; publishing of electronic publications; publishing of web magazines; rental of videotapes, videocassettes and videograms; teaching computer programming; training for handling scientific instruments and apparatus for research in laboratories; training in the use and operation of computer equipment; tutoring; video recording services; video tape editing; video tape film production; videotaping; workshops and seminars in the field of technical writing; written text editing

Class 42

(3) advisory services in the field of product development and quality improvement of software; cloud computing enabling file storage of payroll data; cloud computing photo sharing services; cloud computing provider services for general storage of data; cloud computing providing software for database management; cloud computing video hosting web sites; cloud computing web hosting services; computer aided graphic design; computer aided imaging; computer animation production services; computer anti-virus protection services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics imaging; computer hardware and software design; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming of computer games; computer programming of video games; computer programming services; computer programming services for commercial analysis and reporting; computer rental; computer services in the form of

filtering unwanted e-mails; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer system design; computer systems design; computer systems integration services; computer systems monitoring services; computer time sharing; computer virus protection services; computer website design; consultancy in the design and development of computer hardware; consultancy in the field of energy-saving; consultancy in the field of software design; consultancy in the field of webpage design; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; data decryption services; data encryption and decoding services; data encryption services; data migration services; database design and development; database development services; design and creating web sites for others; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and maintenance of web sites for others; design and testing of new products for others; design and writing of computer software; design, creation, hosting and maintenance of internet sites for third parties; design, creation, hosting, maintenance of websites for others; design, development and implementation of software; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer programs and software for aircraft dashboards; design of computers; design of computers for others; design of homepages and websites; design of mobile telephones; design of optical and micro optical components; design of telephones; design, updating and rental of computer software; design, upgrading and rental of computer software; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; developing and updating computer software; developing computer software; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development and creation of computer programmes for data processing; development of computer hardware for computer games; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); development of data processing programs by order of third parties; digital compression of computer data; document data transfer and conversion from one media to another.; document data transfer from one computer format to another; drafting services; duplication of computer programs; electronic storage of medical records; encoding of magnetic cards; energy auditing; energy auditing services; installation and maintenance of computer software; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; installation of computer software; installation, repair and maintenance of computer software; installing computer programs; leasing of computer programs; leasing of computers; maintenance and updating of computer software; maintenance and upgrading of computer software; maintenance of computer software; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of software for Internet access; managing web sites for others; optical laboratories; platform as a service (PAAS) featuring computer software platforms for use in the field of financial services for trading derivatives; providing information on computer technology and programming via a web site; providing quality assurance in the field of computer software; providing scientific information in the fields of climate change and global warming; providing search engines for the internet; rental of a database server to third parties; rental of computer games; rental of computer hardware and computer peripherals; rental of computer software; rental of computers; rental of laboratory instruments; rental of web servers; repair of damaged computer programs; research and development of new products for others; research in the area of semiconductor processing technology; research in the field of physics; scientific research in the field of genetics and genetic engineering; software as a service (SAAS) provider in the field of providing customer relations management; software as a service (SAAS) provider in the field of software for small business accounting; structural and functional analysis of genomes; technical consultancy in relation to the production of semiconductors; technical consulting in the field of aerospace engineering; technical research in the field of aeronautics; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; technical surveying; technical writing; telemetry monitoring, alerting and record-keeping of space craft; tool design; updating and rental of software for data processing; updating of computer programs for third parties; updating of computer software; updating websites for others; web hosting; website design; writing and updating computer software; zoological research services

Class 45

(4) copyright management; copyright management consultation; expert witness services in the field of crime scene reconstitution; expert witness services in the field of forensic science; intellectual property consultancy; intellectual property consultation services; licensing of computer software; licensing of intellectual property; online social networking services; operation of a web site that provides online social networking; registration of domain names for identification of users on a global computer network; reminder services for personal dates and event; reminder services of dates and events; reviewing standards and practices to assure compliance with environmental regulations; reviewing standards and practices to assure compliance with zoning regulations; security printing in the form of encoding identification information on valuable documents and products; telemetry monitoring of exact location of wild animals; undertaking; undertaking services

- Set of lines evoking speed or propulsion
- Letters presenting a special form of writing
- Letters embellished or decorated with a drawing
- Letters underlined, overlined, framed or barred by one or more strokes

---

Goods

(1) Renewable energy systems namely wind towers, wind tower bases and parts; wind power equipment namely wind measurement Lidar, signal correction boxes, and GPS controllers; components and accessories for wind towers and wind tower bases, namely the platforms, ladders, guide rails, grate trays, lifts, and guiderails that are affixed to and ancillary to the wind towers and wind tower bases themselves.

(2) Steel structures namely off-shore wind power jacket and piles, trussed steel structures for on/ off-shore wind power towers, steel constructions of scaffolding for on/off-shore wind power towers; chemical equipment namely pressure vessels; off-shore platforms for underwater mining of oil and natural gas; off-shore platforms for supporting wind turbine towers; jack-up platforms for off-shore wind power towers; off-shore equipment namely semi-submersible ships.

SERVICES

Conceptualizing, designing, development, and manufacture of renewable energy products namely wind power equipment; consulting in the field of wind power technology.

CLAIMS

Trademark Description

The trademark is a two-dimensional design. The three-dimensional object shown in dotted outline in the drawing does not form part of the trademark and is shown merely to provide an example of how the trademark may be applied to a three-dimensional object.

Colour Claim

Colour is claimed as a feature of the trade-mark. The word PASSOA as it appears in two locations in the design is yellow. The word PASSOA as it appears at the top of the design is set against a black rectangular background with horizontal black line immediately below the black rectangle. The line below the word PASSOA as it appears in the lower instance of the word in the design is yellow. The narrow rectangular shape below the upper instance of the word PASSOA is red. The background of the portion of the design below the ¿bottleneck¿ consists of a series of overlapping and interlocking strands coloured green, yellow and red. The overlapping and interlocking strands are intersected and outlined in black. The diamond design is red in the top half and yellow in the bottom half. The circular design within the diamond shape contains black sphere scattered with stars in the centre which are red and yellow. The background design of a cocktail glass behind the word PASSOA and the diamond shape is black. The small cocktail glass at the top right of the background glass design is white and encircled with white on a black background. The arrow design in the centre of the small cocktail glass is red.

Goods

Class 01
(1) chemical coatings used in the manufacture of printed circuit boards; chemical oxidants for the manufacture of printed circuits; diagnostic preparations for medical-scientific research use; diagnostic preparations for scientific research use testing for contaminants in food; diagnostic preparations for scientific research use testing for residual pesticides in grain; diagnostic reagents for medical-scientific research use; diagnostic reagents for scientific research use that test for contaminants in food; diagnostic reagents for scientific research use that test for residual pesticides in grain; etchants for use in the manufacture of printed circuit boards; stem cells for research and scientific purposes

Class 06
(2) films and sheets made from metal for use in the manufacture of circuit boards

Class 09
(3) acceleration sensors; air traffic control radio equipment; antennas for radio; anti-glare filters for televisions and computer monitors; apparatus for automatic chromatography; apparatus for measuring the thickness of skins; automatic indicators of low pressure in tyres; automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tyres; automatic ion-exchange chromatography apparatus for laboratory use; bicycle flashing safety lights; blank integrated circuit cards; breathing apparatus for underwater swimming; camera containing a linear image sensor; cameras for monitoring and inspecting equipment in a nuclear power station; carbon dioxide detectors; carbon monoxide detectors; cases for electronic diaries; change-over switches for telecommunication apparatus; choking coils for use in electrical apparatus; chromatography apparatus for laboratory use; circuit boards; circuit boards provided with integrated circuits; clip-on flashing safety lights; computer buffers; computer cables; computer central processing units; computer chips; computer display screens; computer fingerprint imaging software; computer fingerprint scanning software; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer hardware; computer hardware and software for setting up and configuring local area networks; computer hardware for telecommunications; computer interface boards; computer interface cards; computer keyboards; computer memory expansion modules; computer mice; computer monitors; computer motherboards and daughterboards; computer mouse; computer mouse pads; computer network adapters; computer network bridges; computer network server; computer network switches; computer operating programs; computer operating recorded programs; computer operating

systems; computer power supplies; computer programmes for document management; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs for searching the contents of computers and computer networks by remote control; computer programs used for electronic cash register systems; computer scanners; computer screen saver software; computer screens; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for assisting developers in creating program code for use in multiple application programs; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for creating and inserting metatags into documents and information; computer software for creating, sending and receiving e-mail; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for image processing; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to mobile telephones; computer terminals; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers for managing control devices for aircraft; computers for use in data management; connectors for electronic circuits; coolant-temperature sensors; decision circuits; demagnetizing apparatus for magnetic tapes; desktop computers; diagrams for model aircraft circuits; digital photo-optical systems; digital signage monitors; disk drives for computers; dispersion shifted optical fibres; dive computers; downloadable computer graphics; downloadable electronic games; e-commerce software to allow users to perform electronic business transactions via a global computer network; electric and electronic video surveillance installations; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical and electronic burglar alarms; electrical and optical cables; electrical industrial controls for monitoring waste water treatment; electrical transformers for telecommunication apparatus; electricity conduits; electrodes for laboratory research; electrolysis apparatus for producing hydrogen and oxygen from water; electronic agendas; electronic book readers; electronic books; electronic cables; electronic card readers; electronic chips for the manufacture of integrated circuits ; electronic circuit board; electronic circuits; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic databases containing information in the field of allergies recorded on computer media; electronic diaries; electronic door closing systems; electronic encryption units; electronic equipment for mine detection; electronic frequency converters for high velocity electro motors; electronic glossaries; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic lock assemblies; electronic machines for reading credit cards and recording financial operations; electronic organizers; electronic payment terminals; electronic pens; electronic personal organisers; electronic personal organizers; electronic plotters; electronic pocket translators; electronic semi-conductors; electronic sensors for measuring solar radiation; electronic speed controllers; electronic tags for goods; electronic toll smart cards; electronic warning bells; external computer hard drives; filters for radio interference suppression; fire and smoke detectors; fire extinguishing apparatus for automobiles; firmware for remote monitoring of hardware; flashing safety lights for traffic cones; floppy discs drives for computers; galena crystal detectors for use in electronics; glassware for scientific experiments in laboratories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; graphite electrodes; handheld computers; hand-held electronic dictionaries; highway safety cones; indicator lights for telecommunication apparatus; integrated circuit electronic toll cards; integrated circuit hotel room key cards; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; interface cards for data processing equipment in the form of printed circuits; internet newsletters; lan [local area network] computer cards for connecting portable computer devices to computer networks; laptop computers; large scale integrated circuits; lcd monitors; led underwater lights for use as a safety beacon for scuba divers; light-emitting electronic pointers; liquid level sensors; luminous safety beacons for use as a personal locator; magnetic mount flashing safety lights for vehicles; magnetic object detectors; magnetic tape units for computers; magneto-optical pens; manual telegraph apparatus; marine luminous safety beacons; masts for wireless aerials; metal detectors; metal detectors for industrial or military purposes; microphones for telecommunication apparatus; motion detectors; motion sensors; mounting racks for computer hardware; navigation apparatus for vehicles in the form of on-board computers; netbook computers; nonlinear optical fibres; notebook and laptop computers; notebook computer carrying cases; oil level sensors; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; optical amplifiers; optical cables; optical character readers; optical character recognition apparatus; optical condensers; optical fiber cables; optical fibres; optical filters for screens; optical frames; optical glass; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspection of food; optical lenses; optical multiplexers; optical reflectors; optical scanners; optical semiconductor amplifiers; optical sensors; optical shutters; optical spectacles; optical switches; personal computers; pocket computers for note-taking; pocket-sized electronic calculators; polarisation maintaining optical fibres; pollutant sensors; portable radios; pressure sensors; printed circuit boards; printed circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printers for computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; proximity sensors; radar detectors; radio and television aerials; radio frequency connectors; radio pagers; radio receivers; radio receivers and radio signal tuners; radio receivers and transmitters; radio relay cables; radio sets; radio transceivers; radio transmission towers; radio transmitters; radio transmitters and receivers; radios; radios and telephones; radon detectors; recorded computer operating programs; reflective safety bands to be worn on the body; reflective safety vests; relays for radio and TV stations; repeaters for radio and television stations; safety boots; safety contact plugs; safety goggles; safety harnesses; safety markers; satellites for scientific purposes; scientific apparatus for determining the water content in petroleum products; scientific prisms; secure terminals for electronic transactions; semiconductor integrated circuits; short range radios; single-channel radio communication machines and apparatus for fixed stations; smoke detectors; software for computer aided design CAD; software for computer aided mechanical design; software for ensuring the security of electronic mail; sound filters made of cloth, for radio apparatus; spectrograph apparatus; tablet computers; temperature sensors; thermal sensors; timing sensors; transparency projection apparatus; two-way radios; vacuum tubes for radios; vehicle radios; vibration sensors for installation in wind mill housings; voltage monitor modules; wafers for integrated circuits; warning triangles for road safety; water ski safety vests; wireless computer mice; x-ray apparatus for detecting moisture in building material; x-ray apparatus for screening luggage at airports

Class 10

(4) anesthetic delivery apparatus; apparatus for artificial respiration; apparatus for blood analysis; apparatus for cardiac defibrillation; apparatus for taking blood; apparatus for taking blood samples; apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein; arterial blood pressure measuring apparatus; artificial respiration apparatus; automatic vaccination apparatus; blood drawing apparatus; blood glucose monitors; blood pressure measuring apparatus; blood pressure monitors; blood testing apparatus; blood transfusion apparatus; body-fat monitors; breast pumps; cardiac defibrillation electrodes; cardiac electrodes; diabetes monitoring equipment for sampling and analyzing blood and body tissue; electrodes for external defibrillators; electrodes for medical use; electronic medical devices implanted in the eye to help restore vision; electronic muscle stimulators; heart monitors; heart rate monitors; heartbeat measuring apparatus; high frequency electromagnetic therapy apparatus; hydrophilic guide wire to track catheters; incubators for medical purposes; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; low frequency electric therapy apparatus; magnetic resonance CT apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical electrodes; medical ultrasound apparatus; medical x-ray apparatus; microdermabrasion apparatus; obstetric apparatus for cattle; oxygen monitors; patient safety restraint straps; patient safety restraints; phototherapeutic apparatus for medical purposes; polymerisation apparatus for dental purposes; prosthetic sockets used to fasten prosthetic limbs to the body; pulse rate monitors; static electric therapy apparatus; ultrasonic medical diagnostic apparatus; x-ray apparatus for dental imaging; x-ray apparatus for medical purposes; x-ray apparatus for medical use

Class 11

(5) safety lamps for underground use

Class 16

(6) computer manuals featuring software encryption algorithms

Class 28

(7) arm bands featuring motion sensors and gesture control software for use with interactive video games; armbands featuring motion sensors and gesture control software for use with interactive video games; tennis ball throwing apparatus

SERVICES

Class 35

(1) auctioning via telecommunication networks; computer file management; providing home shopping services of fitness equipment via the Internet; subscription to an Internet telematics, telephone or computer service; tracking and tracing of packages in transit

Class 38

(2) electronic mail; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; internet radio broadcasting services; internet telephony services; leasing access time to a computer database in the field of community social events; leasing access time to an electronic bulletin board in the field of community social events; mobile radio telephone services; news agency services via a global computer network; operating a wide-area network (WAN); operation of an electronic bulletin board containing information in the field of nutrition; operation of an electronic bulletin board in the field of community social events; paging by radio; providing chat lines utilising the internet; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing user access to a global computer network; providing user access to global computer networks; providing voice chat services; provision of access to a global computer network; provision of access to the Internet; radio/ telephone paging services; rental of access time to global computer networks; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; telecommunication routing and junction services; telecommunications routing and junction services; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; wireless digital messaging services; wireless facsimile mail services; wireless fax services; wireless telephone services; wireless voice mail services

Class 40

(3) generating electricity; generation of electricity; generation of electricity from solar energy; providing custom-built computer workstations

Class 41

(4) training for handling scientific instruments and apparatus for research in laboratories

Class 42

(5) calibration of electronic equipment; computer aided graphic design; computer aided imaging; computer animation production services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming

services; computer security consultancy; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer systems design; computer systems integration services; computer systems monitoring services; computer website design; consumer product safety testing services; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; debugging computer software for others; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design, creation, hosting and maintenance of internet sites for third parties; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer programs and software for aircraft dashboards; design of computers; design of computers for others; design of optical and micro optical components; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; developing computer programs for electronic cash register systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development and creation of computer programmes for data processing; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); digital compression of computer data; DNA screening for scientific research purposes; document data transfer from one computer format to another; electronic digitizing of photographs into a computer readable media; electronic storage of medical records; electronic storage of photographic images; food safety auditing; genetic testing for scientific research purposes; information on the subject of scientific research in the field of biochemistry and biotechnology; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; integrated scientific research on vermin for greenhouses and harvest crops; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; optical laboratories; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; providing scientific information in the fields of climate change and global warming; providing search engines for the internet; scientific research in the field of genetics and genetic engineering; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; telemetry monitoring, alerting and record-keeping of space craft; testing of two-way radio systems; writing and updating computer software

Class 44

(6) cardiac telemetry monitoring of a patient's heart rate; managed health care services namely, electronic processing of health care information

Class 45

(7) licensing of computer software; monitoring of burglar and security alarms; monitoring of home security systems; telemetry monitoring of exact location of wild animals

electric and electronic video surveillance installations; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical and electronic burglar alarms; electrical and optical cables; electrical industrial controls for monitoring waste water treatment; electrical transformers for telecommunication apparatus; electricity conduits; electrodes for laboratory research; electrolysis apparatus for producing hydrogen and oxygen from water; electronic agendas; electronic book readers; electronic books; electronic cables; electronic card readers; electronic chips for the manufacture of integrated circuits ; electronic circuit board; electronic circuits; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic databases containing information in the field of allergies recorded on computer media; electronic diaries; electronic door closing systems; electronic encryption units; electronic equipment for mine detection; electronic frequency converters for high velocity electro motors; electronic glossaries; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic lock assemblies; electronic machines for reading credit cards and recording financial operations; electronic organizers; electronic payment terminals; electronic pens; electronic personal organisers; electronic personal organizers; electronic plotters; electronic pocket translators; electronic semi-conductors; electronic sensors for measuring solar radiation; electronic speed controllers; electronic tags for goods; electronic toll smart cards; electronic warning bells; external computer hard drives; filters for radio interference suppression; fire and smoke detectors; fire extinguishing apparatus for automobiles; firmware for remote monitoring of hardware; flashing safety lights for traffic cones; floppy discs drives for computers; galena crystal detectors for use in electronics; glassware for scientific experiments in laboratories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; graphite electrodes; hand-held electronic dictionaries; handheld computers; highway safety cones; indicator lights for telecommunication apparatus; integrated circuit electronic toll cards; integrated circuit hotel room key cards; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; interface cards for data processing equipment in the form of printed circuits; internet newsletters; lan [local area network] computer cards for connecting portable computer devices to computer networks; laptop computers; large scale integrated circuits; lcd monitors; led underwater lights for use as a safety beacon for scuba divers; light-emitting electronic pointers; liquid level sensors; luminous safety beacons for use as a personal locator; magnetic mount flashing safety lights for vehicles; magnetic object detectors; magnetic tape units for computers; magneto-optical pens; manual telegraph apparatus; marine luminous safety beacons; masts for wireless aerials; metal detectors; metal detectors for industrial or military purposes; microphones for telecommunication apparatus; motion detectors; motion sensors; mounting racks for computer hardware; navigation apparatus for vehicles in the form of on-board computers; netbook computers; nonlinear optical fibres; notebook and laptop computers; notebook computer carrying cases; oil level sensors; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; optical amplifiers; optical cables; optical character readers; optical character recognition apparatus; optical condensers; optical fiber cables; optical fibres; optical filters for screens; optical frames; optical glass; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspection of food; optical lenses; optical multiplexers; optical reflectors; optical scanners; optical semiconductor amplifiers; optical sensors; optical shutters; optical spectacles; optical switches; personal computers; pocket computers for note-taking; pocket-sized electronic calculators; polarisation maintaining optical fibres; pollutant sensors; portable radios; pressure sensors; printed circuit boards; printed circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printers for computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; proximity sensors; radar detectors; radio and television aerials; radio frequency connectors; radio pagers; radio receivers; radio receivers and radio signal tuners; radio receivers and transmitters; radio relay cables; radio sets; radio transceivers; radio transmission towers; radio transmitters; radio transmitters and receivers; radios; radios and telephones; radon detectors; recorded computer operating programs; reflective safety bands to be worn on the body; reflective safety vests; relays for radio and TV stations; repeaters for radio and television stations; safety boots; safety contact plugs; safety goggles; safety harnesses; safety markers; satellites for scientific purposes; scientific apparatus for determining the water content in petroleum products; scientific prisms; secure terminals for electronic transactions; semiconductor integrated circuits; short range radios; single-channel radio communication machines and apparatus for fixed stations; smoke detectors; software for computer aided design CAD; software for computer aided mechanical design; software for ensuring the security of electronic mail; sound filters made of cloth, for radio apparatus; spectrograph apparatus; tablet computers; temperature sensors; thermal sensors; timing sensors; transparency projection apparatus; two-way radios; vacuum tubes for radios; vehicle radios; vibration sensors for installation in wind mill housings; voltage monitor modules; wafers for integrated circuits; warning triangles for road safety; water ski safety vests; wireless computer mice; x-ray apparatus for detecting moisture in building material; x-ray apparatus for screening luggage at airports

Class 10

(4) anesthetic delivery apparatus; apparatus for artificial respiration; apparatus for blood analysis; apparatus for cardiac defibrillation; apparatus for taking blood; apparatus for taking blood samples; apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein; arterial blood pressure measuring apparatus; artificial respiration apparatus; automatic vaccination apparatus; blood drawing apparatus; blood glucose monitors; blood pressure measuring apparatus; blood pressure monitors; blood testing apparatus; blood transfusion apparatus; body-fat monitors; breast pumps; cardiac defibrillation electrodes; cardiac electrodes; diabetes monitoring equipment for sampling and analyzing blood and body tissue; electrodes for external defibrillators; electrodes for medical use; electronic medical devices implanted in the eye to help restore vision; electronic muscle stimulators; heart monitors; heart rate monitors; heartbeat measuring apparatus; high frequency electromagnetic therapy apparatus; hydrophilic guide wire to track catheters; incubators for medical purposes; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; low frequency electric therapy apparatus; magnetic resonance CT apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical electrodes; medical ultrasound apparatus; medical x-ray apparatus; microdermabrasion apparatus; obstetric apparatus for cattle; oxygen monitors; patient safety restraint straps; patient safety restraints; phototherapeutic apparatus for medical purposes; polymerisation apparatus for dental purposes; prosthetic sockets used to fasten prosthetic limbs to the body; pulse rate monitors; static electric therapy apparatus; ultrasonic medical diagnostic apparatus; x-ray apparatus for dental imaging; x-ray apparatus for medical purposes; x-ray apparatus for medical use

Class 11

(5) safety lamps for underground use

Class 16

(6) computer manuals featuring software encryption algorithms

Class 28

(7) arm bands featuring motion sensors and gesture control software for use with interactive video games; armbands featuring motion sensors and gesture control software for use with interactive video games; tennis ball throwing apparatus

SERVICES

Class 35

(1) auctioning via telecommunication networks; computer file management; providing home shopping services of fitness equipment via the Internet; subscription to an Internet telematics, telephone or computer service; tracking and tracing of packages in transit

Class 38

(2) electronic mail; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; internet radio broadcasting services; internet telephony services; leasing access time to a computer database in the field of community social events; leasing access time to an electronic bulletin board in the field of community social events; mobile radio telephone services; news agency services via a global computer network; operating a wide-area network (WAN); operation of an electronic bulletin board containing information in the field of nutrition; operation of an electronic bulletin board in the field of community social events; paging by radio; providing chat lines utilising the internet; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing user access to a global computer network; providing user access to global computer networks; providing voice chat services; provision of access to a global computer network; provision of access to the Internet; radio/ telephone paging services; rental of access time to global computer networks; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; telecommunication routing and junction services; telecommunications routing and junction services; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; wireless digital messaging services; wireless facsimile mail services; wireless fax services; wireless telephone services; wireless voice mail services

Class 40

(3) generating electricity; generation of electricity; generation of electricity from solar energy; providing custom-built computer workstations

Class 41

(4) training for handling scientific instruments and apparatus for research in laboratories

Class 42

(5) DNA screening for scientific research purposes; calibration of electronic equipment; computer aided graphic design; computer aided imaging; computer animation production services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the

medical field; computer programming services; computer security consultancy; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer systems design; computer systems integration services; computer systems monitoring services; computer website design; consumer product safety testing services; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; debugging computer software for others; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software, design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design of computer database; design of computer programs and software for aircraft dashboards; design of computers; design of computers for others; design of optical and micro optical components; design, creation, hosting and maintenance of internet sites for third parties; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; developing computer programs for electronic cash register systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development and creation of computer programmes for data processing; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); digital compression of computer data; document data transfer from one computer format to another; electronic digitizing of photographs into a computer readable media; electronic storage of medical records; electronic storage of photographic images; food safety auditing; genetic testing for scientific research purposes; information on the subject of scientific research in the field of biochemistry and biotechnology; installation, maintenance and repair of Internet access software; installation, maintenance and repair of computer software; installation, maintenance and repair of software for computer systems; integrated scientific research on vermin for greenhouses and harvest crops; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; optical laboratories; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; providing scientific information in the fields of climate change and global warming; providing search engines for the internet; scientific research in the field of genetics and genetic engineering; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; telemetry monitoring, alerting and record-keeping of space craft; testing of two-way radio systems; writing and updating computer software

Class 44

(6) cardiac telemetry monitoring of a patient's heart rate; managed health care services namely, electronic processing of health care information

Class 45

(7) licensing of computer software; monitoring of burglar and security alarms; monitoring of home security systems; telemetry monitoring of exact location of wild animals
